

# Nutbox x Mint Club Staking Pool Compensation Official Announcement

## Background

Yesterday the Walnut admin account's private key was cracked by a hacker, who transferred user's staked assets from Walnut contract to his own address. Our team immediately asked for the intervention of the security audit company CertiK to help investigate the cause of the hack.

**Please see the summarized report below.**

- It is definitely not done internally by the team. The exact cause of the private key leakage is still under investigation.
- The hacker withdrew a total of 101,000,000,000 MINT, 158,000 MINTDAO, 118,000 GRANT and 1,025,538 Cake-LP tokens (MINT/WBNB pool).
- Nutbox team will take the corresponding responsibilities and give all the holders a reasonable compensation plan.

**Please don't trust any unofficial false news.**

## Compensation Plan

As a responsible platform, we will always put our users first.

After careful discussion, Nutbox team have decided to **give out 20% of the total NUT held by the team (i.e. 20 million NUT)** to compensate users who have lost their assets in this incident.

Since NUT has not yet been listed, the following is the relevant information:

- Listing time: NUT is expected to be listed in March to April 2022.
- Unlock term: Since this part of the NUT is separated from the share held by the team, the unlocking rules are consistent with the part of the team. Lock-up term is 3 mths after listing, linear unlocking in 5 years with 20% per year.

NUT compensation is based on the **value of the lost asset**, the specific calculation is as follows (Calculated based on the value at 2021/11/19 14:50 UTC+8) :

Token	Volume	Price/\$	Value	Proportion	NUT Compensation	Remark
MINT	101,000,000,000	0.00002405	2,429,050	58.79%	11,757,639	
MINTDAO	158,000	3.77	595,660	14.42%	2,883,249	
GRANT	118,000	6.87	810,660	19.62%	3,923,940	
Cake-LP tokens	1,025,538	0.289113592	296,497	7.18%	1,435,172	MINT/WBNB

The list of users and staking amounts is as follows, and we will determine the amount of NUT compensation based on this list.

## Next Step

1. Walnut platform's functionalities will be temporarily suspended to protect user assets ;
2. Nutbox Walnut contract will be redeployed. Please stay tuned ;
3. Please verify that the list information is accurate, if any question, please ask in the Nutbox official discussion group [【https://t.me/nutbox\\_defi】](https://t.me/nutbox_defi) .

Nutbox team went through ups and downs together in the industry for many years and we won't be defeated by these criminals from building up the Walnut platform. We will grow to achieve the long-term goal of building a Multi-chain CommunityFi platform.

We currently reached a consensus with the Mint Club team, we will face it together, develop together, and bring a better experience to users in the future.
